

City of Grand Coulee – Public Notice for Geophysical Field Surveys

PUBLIC NOTICE regarding Geophysical Investigation in City of Grand Coulee area:

Columbia Basin Hydropower (CBHP) and geotechnical consultant, Schnabel, will be conducting surface geophysical site investigations on Bureau of Reclamation (BOR) land and on some streets in the City of Grand Coulee during a 14-day work period beginning the week of December 4, 2023. Planned work includes seismic surveys of multi-channel analysis of surface waves (MASW), seismic refraction, and magnetic surveys and will involve laying cables along several City of Grand Coulee streets and on Bureau of Reclamation land. Streets within the City of Grand Coulee will not need to be closed during the survey work. The survey will occur along a preliminary route for a proposed pumped storage project, see attached map.

For further information about the survey, please see the contact list below. Contacts:
